ENTREX MARKET INDEX – TOKEN SALE SUMMARY

Entrex Capital Market, Inc (“the Entrex Capital Market” or “Entrex”) is offering a digital token to provide investors access to the returns of the Entrex Market Index, the composite index of the Entrex Capital Market. Backed by patented, blockchain-tradable* TIGRcub® securities, TIGRtokens™ provide investors the potential for monthly revenue-enhanced yield from a diversified basket of cash-flowing entrepreneurial companies.

THE TIGRcub® Certificate

Entrex was founded in 2001 to create a capital market system for the underserved “entrepreneurial sector,” defined as those companies with \$5-250 million revenue whose capital needs are above the capabilities of friends and family but below the interests of Wall Street. The companies in this sector, while typically profitable and cash-flowing, present unique challenges that constrain the issuance of traditional equity (or “stock”)—particularly issues around valuation, liquidity and governance rights. To meet these challenges, Entrex built its market around the TIGRcub®, or “top-line income-generation rights certificate,” a patented and blockchain-tradable* revenue-enhanced debt security that aligns the interests of the investor with the issuer.

ENTREX MARKET INDEX

The Entrex Market Index LLC is the composite index of the Entrex Capital Market. Each participating company has up to 10% of its TIGRcubs® purchased by The Entrex Market Index LLC (“EMI”) in order to create a diversified basket of monthly yield. Each issuer’s TIGRcub® pays interest to the composite index, with 99% of EMI revenue (GAAP Revenues for EMI are monthly distributions of underlying Company Issuer TIGRcub Payments) distributed monthly to index investors.

THE TIGRtoken™

The TIGRtoken™ (TIGR) is an Ethereum ERC-20 compliant token and represents ownership of an EMI-issued TIGRcub®. TIGRtokens™ will be offered to accredited investors in accordance with federal and state securities laws. Each TIGRtoken™ provides access to the returns of the Entrex Market Index, which buys each TIGRcub® offering on a pari-passu basis, providing investors the potential for monthly revenue-enhanced yield from a diverse basket of issuers. In 2017, the annualized rate of return produced by the Entrex Market Index was 12.19%**.

Use of Proceeds

Proceeds from the sale of TIGRtokens™ may purchase up to 10% of all Entrex Capital Market TIGRcub® issuers.

TIGRcubs®, or “top line income generation rights certificates”, are blockchain tradable*, revenue-enhanced debt securities, that typically provide a monthly yield of base interest rate plus a portion of the issuer’s prior-month revenue. Entrex eChain LLC (“eChain”), the TIGRcub® payment and service provider, shall distribute 99% of the monthly payments received by EMI from its TIGRcub® holdings to EMI TIGRtoken™ holders each month.

Economic Overview

Symbol	TIGR
Current Offering	\$25,000,000
Token Price	\$10,000
First Secondary Trade*	02-08-2018
Offering Launch	02-18-2018
