

The Entrex Carbon Market was founded to create an efficient, regulatory compliant, platform to buy, sell and retire Carbon Offset Securities.

Today our regulatory compliant trading platform provides an efficient solution to buy, sell and retire verified, securitized, carbon offsets.

ENTREX CARBON MARKET JOINT VENTURE

The Entrex Carbon Market was created through the execution of a Letter of Intent Agreement which created a joint venture between the Entrex Capital Market, LLC and Universal Solar Technology Corp (OTC:UNSS), a public company.

The mission of the joint venture is to bring capital and technology together using Entrex's proven IBM Hyperledger technology to bring safety, security and efficiency to the trading of environmental securities.

Press release available [click here](#).

NET ZERO ANALYSIS

Net Zero works together with Entrex to reduce carbon emissions through renewable energy market transformation.

Working with international offset verifiers and producers Net Zero Analysis helps entities gain access to the Entrex Carbon Market and assisting in professional origination; maximize visibility and placement.

ISSUER DOCUMENTATION PROCESS

The "Buy-Order" process has been well proven across regulated market constituents and allows all parties comfort in the trading & settlement process.

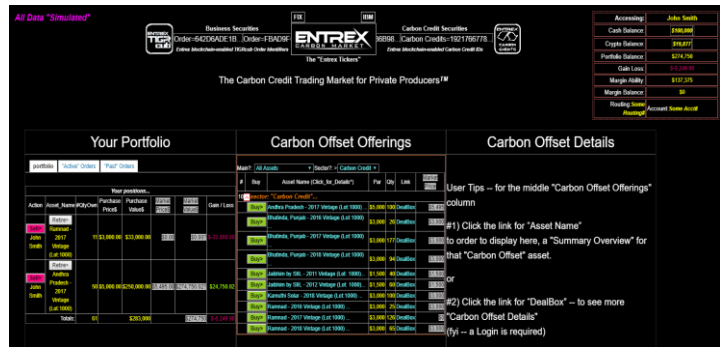

CARBON OFFSET BUYER PROCESS

Buyers of Carbon Offsets can purchase securitized Carbon Offsets on the Entrex Carbon Market by working together with Entrex Market Members.

Entrex Carbon Market Members can help you purchase Carbon Offsets electronically from the Entrex Owner Portal or through off-line contracts for Carbon Offsets desired.

ENTREX OWNER PORTAL

Buyers are assigned a user specific, password protected, electronic Owner Portal which displays a buyers cash position, owned and available Offsets and any orders in the transaction process.

Buyers may place "Buy-Orders" which await matching "Sell-Orders" which when matched then process through the regulated parties settling the order/s.

ORDER DOCUMENTATION

Each Carbon Offset matched order is followed up by a electronic or paper "Subscription" which outlines the sell, ownership and retirement process. Once a subscription is duly executed by parties funding is distributed to escrow accounts and distributed to parties pursuant to an executed funds distribution agreement at closing/settlement. Electronic settlement occurs each day at 12:00 PM midnight.

RETIREMENT OR SALE OF OFFSETS

Similar to a "Buy-Order"; owners can electronically issue their owned certificates for sale via a "sell order" from their Entrex Owner Portal. Any owned certificates can also be retired from the Portal.
